Trevor...we're still unsure what spreadsheets you're asking for. The Mercury Reports have all the data we've collected as required by the permit. We have voluntary sampling data and raw data/field notes that was used to compile the reports but I'm not inclined, nor obligated, to send that material to you.

As I stated in an earlier email, if you request additional information that I can easily pass on to you via email, then I'm happy to oblige, but beyond that, you will have to depend on other means, such as FOI, to get additional information.

Good Morning Stephen

Thank-you. I have received the responses.

As you recall, we had discussed the provision of the mercury monitoring quality data (i.e. the spreadsheets), and you had indicated that you would decide on the request once this response had been completed.

Cheers

~T
