Premier responds to high profile Canadians letter on KI, Ardoch jailings

Seven community leaders, Bob Lovelace and the KI six, were recently sentenced to jail for peacefully opposing mineral exploration on their lands. The current mining act grants no such accommodation. It is critical that Ontario replace the antiquated "free entry" system of mining and exploration with a modern, regulated process of granting exploration permits *only after* conservation planning, and consultation and accommodation with First Nations. In the meantime, Ontario could relieve the pressure by immediately withdrawing those lands from mining and applying rules for development as they promised.
