Opening Gala: On Thin Ice a hit!

More than 150 people streamed through the doors to celebrate the opening of this year's show, "On Thin Ice: The Natural Solution" Tuesday night.

Members, student artists, friends, family and Kensington market residents mingled, enjoying the artful offerings of UTM/Sheridan College Art and Art History students. Kristen and the team at Zero Waste Catering supplied outstanding food. Music provided by Kensington Market's Noah Jones.

One of the highlights of the night was George Smitherman's Polar Tales – adventure and bugs on the 2009 Sutton River trip with Wildlands League. The larger than life visuals literally leapfrogged us to the shores of Hudson's Bay without the 2000km trek.

Dave Pearce motivated those in attendance to work harder than ever to help protect this vitally important ecosystem with his Polar Bear Peat presentation.

On Thin Ice: The Natural Solution continues through Tuesday March 30th @*Hotshot Gallery (181 Augusta Avenue) in Kensington Market.
