Keep in mind that neither MOECC nor AttFN have had a chance to review or comment on this report.

Keep in mind also, that I am providing you this document in the spirit of cooperation and because the document can be emailed.....otherwise you would have to obtain the document via more normal channels such as FOI. We are not your personal administrative assistant and I really don't care what is expedient.....and your "request" is not particularly respectful in my opinion.

Subject: Request for 2014 Mercury Performance Report

Hello Stephen,

As we are in the middle of the current public consultation on the Victor Mine PTTW, and the notably relevant subject Report was due to the Ministry this week, we respectfully request that this document be made available to us in the most expedient manner possible, in order to facilitate our ability to participate in this consultation.

Regards

~T
